SUMMARY

Frontend-Focused Full Stack Developer with 6 months of professional experience building scalable RESTful APIs and production-ready MERN stack applications. Strong expertise in Node.js, Express.js, MongoDB, authentication systems (JWT, RBAC) and performance optimization. Experienced in AI integration with LLM APIs and deploying cloud-based applications. Passionate about building secure, high-performance backend systems and AI-powered web platforms.

Experience

Junior Software Engineer

Present

ITStaffio

India

- Designed and developed scalable RESTful APIs using Node.js and Express.js.
- Implemented secure JWT and RBAC authentication workflows, eliminating unauthorized access attempts and ensuring 100% data privacy for 100+ active user accounts.
- Optimized MongoDB queries and indexing, improving API response time by 30%+.
- Integrated backend APIs with React.js frontend applications.

Full Stack Developer Intern

Previous

TLogic Software Solutions

India

- Developed full-stack MERN applications with complete CRUD functionality.
- Built authentication workflows including login, registration and protected routes.
- Designed MongoDB schemas and managed data relationships.
- Collaborated using GitHub pull requests and Agile development methodology.

Skills

- Frontend: React.js, HTML5, CSS3, JavaScript(ES6+), Responsive Design.
- Backend: Node.js, RESTful APIs, Express.js, Authentication (JWT, RBAC).
- Database: MongoDB, Mongoose, NoSQL.
- Tools & Methodology: Git/GitHub, Postman, Slack, Jira, Vercel, Render.
- AI Integration: LLM (API Integration), Prompt Engineering, Generative AI.

Education

Master of Computer Applications(MCA)

Jun 2023 – Jul 2025

MIT World Peace University

India

Bachelor of Computer Applications(BCA)

Jun 2020 – Jul 2023

Vishwakarma College of Arts, Commerce and Science

India

Projects

Business Consulting Platform

- Developed a full-stack MERN application connecting startups and investors with secure REST APIs, JWT authentication, role-based dashboards and optimized MongoDB schemas.
- Integrated AI-powered workflow features and deployed the production-ready application.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, AI API Integration

AI Chatbot – MERN stack with LLM Integration

- Built a responsive AI chatbot using MERN stack with real-time backend processing and LLM API integration for
- Implemented natural language handling, async request management, API rate control and deployed.

Tech Stack: MERN Stack, LLM API, Prompt Engineering, Rest APIs

Certifications

- Generative AI: Prompt Engineering Basics - IBM (Coursera)
- National Level Poster Competition – Poona College
- C and C++ Programming - AIMS Computer Institute
- Getting Started as a Full-Stack Web Developer
